

1 December 1955

MEMORANDUM FOR: PROJECT DIRECTOR

SUBJECT : Cover Designation in Use for Establishment of the  
New Office of Photo Intelligence and Material to  
be Received from Project AQUATONE

1. In order to avoid confusion and exposure of primary mission it has been considered desirable to assign a cover title to the new Office of Photo Intelligence. This title is "Office of Statistical Research" and is being used consistently for all planning documents.

2. The material to be received from Project AQUATONE is being referred to as 25X1A2d2 25X1A2d2. The term 25X1A2d2 is being used in such a manner as to assume the identity of a separate type and source of intelligence information.

3. It is recommended that the terms "Office of Statistical Research" and 25X1A2d2 should not be connected directly with an Office of Photo Intelligence or aerial photography.
